Get Your Gadget Covered Now

Hello,

Dubai Sensor is introducing the infrared thermometer from **Sentry**.
ST689 from Sentry is a non-contact high-performance infrared thermometer.
Features include 4 digits backlit dual display LCD, scan/hold/auto function, and
auto power-off (about 6 seconds).

An infrared thermometer from Sentry offers you:-

- *An instrument for the fast, non-contact measurement of the surface temperature.*
- *Easy temperature measurement, even with dynamic processes or in locations that are difficult to access.*
- *Reliable temperature measurement with cost-effective technology.*

ST689 from Sentry comes with the
following properties:

- High DS ratio.
- New series for general purposes.
- Ultra-low power consumption in shutdown mode.
- Extended long time measuring reliability.
- Laser sighting on/off is switchable.
- Electronic trigger lock.
- Temperature data storage.
- Audible alarms.

How to Use-

To measure a temperature, point the unit at the food or object, pull the
measuring trigger and hold. Make sure the target area is larger than the unit's
spot size. The single spot of laser is used for aiming only.
